GAMER

The 40W LEDs are housed within a diffuser which halos the central fan blades. The 20W fan is fitted behind a grid like cover with a wheel spoke cut-out pattern. To even further modernise this design the vertical outer edge of each fitting houses integral RGB LEDs for a more playful choice of colour. The dimmable colour temperatures and different DC motor speeds can both be controlled by the remote supplied with the item. Gamer is available in either a white or black colour finish.

COIN AIR

The Coin Air 60W LED Dimmable Ceiling Light with Built-In 30W DC Reversible Fan is a high-quality lighting and ventilation solution for any modern space. The product comes in a sleek wooden, white or black finish adding a touch of elegance to the room while providing ample illumination with its 3300lm output. The built-in 30W DC reversible fan provides efficient ventilation, making it perfect for use in homes or offices. The dimmable feature allows for customization of the lighting to suit different moods and occasions. The product comes with a 5-year warranty, which ensures that the user can enjoy its benefits for an extended period. The long lifespan of the LED lights also helps to reduce energy consumption and save on electricity bills. The Coin Air range is an excellent investment for anyone looking to upgrade their lighting and ventilation systems.

HIMALAYA

Following the overwhelming success of the Aliso range Mantra have expanded on their break through design of ventilation lighting with their collection, Himalaya. With a new ascetic design the 35W fan and 70W LEDs are housed with an outer metal frame structured to mimic an industrial fan. This range's ability to set different intensities and speeds, means it can be installed in larger areas, such as living rooms, kitchens or open offices. The dimmable colour temperatures and different DC motor speeds can both be controlled either by the remote supplied with the item, Bluetooth APP or Alexa and Google voice control. Another innovative design by Mantra gives you even more options to accommodate the needs of your home and work environment.

NEPAL

With an impressive diameter of just over 1m, Mantra's Nepal range can use minimal materials to create impact. In a completely new design for their ventilation lighting, Nepal uses a stylish twist propeller concept, taking a different route to the fans usual concealment and instead making this section a central feature. In order to enhance and not detract from this ascetic, the LEDs are diffused within a dome shape ring forming the fan's illuminating border. Available in four colour options this fixture is controllable via the remote supplied with the item, Bluetooth APP or Alexa and Google voice control, bringing a functional design into today's modern home and workspace.

BOREAL

Boreal is a newly designed fan ceiling light from Mantra. Mantra have already established themselves as a designer of high quality ventilation lighting with their previously released ranges. Aswell as a quiet 35W DC fan motor, tuneable LEDs and included remote control, Boreal presents a new appealing ascetic. The diffuser protecting the fan blades is designed to imitate complex spirograph lines. This feature is further enhanced by the moulding of the LED diffuser which also has elliptical ridges making the visual more cohesive.

ALISIO

Alisio is a new proposal from Mantra, to break into the sector of ventilation elements providing, as always, an addition of originality and ingenuity with its design. Its minimalist aesthetic harbors the various functions, offering cool ventilation or heat whilst effectively illuminating the room in which it is situated. Ideal for bedrooms and quiet areas due to its tuneable function and its quiet yet efficient DC motor. While the fan is an ideal addition to any property during the summer, the inverter function (in position of counter rotation) allows you to collect the hot air and distribute it homogenously during the colder months. Alisio's ability to set different intensities and speeds, means it can also be installed in larger areas, such as living rooms, kitchens or open offices. Given the compact configuration and design, it provides a reassuring security by hiding its transparent blades, in an aesthetically discreet way, avoiding dangers and involuntary accidents.

White/Wood Effect

reverse function

The handy reverse function helps control room temperature throughout the year. When you run the Tibet Mini in the usual direction, it will circulate the air so that you stay cool in the summer. Reverse the airflow, and it will push warm air down into the room, helping to keep you warm.

adjustable colour temperature

Warm White
2700K

Natural White
4000K

Cool White
5000K

Adjust the colour temperature to suit your mood. Choose a cooler colour temperature (more white or blue in appearance) during the day when you need to be more alert. Choose a warmer colour temperature (more yellow in appearance) in the evening as you are winding down.

CRI: > 80 - OPERATING VOLTAGE: 220V~240V~50/60Hz

NEPAL MINI

Nepal Mini may be smaller than its 1m counterpart, but still has a substantial 75cm diameter, making it more suitable for smaller room settings. In the same design as the original Nepal range, Nepal Mini uses a stylish twist propeller concept, taking a different route to the fans usual concealment and instead making this section a central feature. In order to enhance and not detract from this ascetic, the LEDs are diffused within a dome shape ring forming the fan's illuminating border. Available in three colour options this fixture is controllable via the remote supplied with the item or Bluetooth APP control, bringing a functional design into today's modern home and workspace.

SAMOA

Samoa's design is reflective of Mantra's very first ventilation lighting design, Alisio. Taking valued feedback from customers, Samoa offers a design with more depth and dimension. The construct of the frame and semi flush arms from the ceiling plate curve in a way that produces an overall dome outline. Available in a white colour finish with a thin, chrome trim, this fan has a greater height of 20cm giving the feature more prominence in the chosen setting. Samoa is controllable via the remote supplied with the item. .
