STATEMENT COLLECTIONS

Welcome to the latest interactive catalogue, in this catalogue you will find our latest and most impressive 'Statement Collections' of lighting fixtures. We understand the time and effort it takes to search through multiple catalogue's to find the perfect fitting. That's why we have created this catalogue specifically to showcase these showpiece fittings, making it easier for you to find what you're looking for. This catalogue is not only visually stunning but also interactive and linked to our website. This means that you can easily access more information about the products and even make a purchase directly from the catalogue via our website. We've also included a quick guide to help you navigate the catalogue's features, so you can make the most of your browsing experience. Whether you're a retailer, designer, or an architect we hope you will find something in this catalogue that will inspire your next project.

INSTRUCTIONS ON HOW TO USE THIS CATALOGUE

This catalog is designed to be user-friendly and interactive, allowing you to easily navigate through the document by clicking on links, just like you would on a webpage. You can access more information about the products, images and even make a purchase directly from the catalog via the Inspired Lighting website. This feature is intended to make your browsing experience more efficient and enjoyable. To help you make the most of the interactive features, we've included a brief guide on how to use them. By following the guide, you will be able to navigate the catalogue with ease and find the information you need quickly. We hope you enjoy these interactive features and find them helpful in your search for the perfect lighting fixtures.

IL31457 Alexandra Crystal Chandelier 49 Light

Ø 780 ↓ 2680–5680 (mm)

49 x E14 20W, 44.65kg

Polished Chrome

Clicking on the item code or description will take you to the Inspired Lighting website so you can view the product online.

Clicking on the range name will take you to the Inspired Lighting website so you can view the entire collection.

Clicking on the left facing arrow will return you to the contents page.

Selecting a product category listed in the table of contents will direct you to the corresponding page.

Alexandra

A spectacularly, dazzling, awe inspiring range filled with an abundance of Asfour crystal available in a Polished Chrome and Gold finish. Each fitting utilises a combination of 40mm clear spheres and 62mm hexagonal drops. Descending tiers increasing in size flow together with cascading strands of crystal beads on the pendants. Every item also features a substantial curved ring of closely packed Asfour crystal beads. The 37 light 1.1m diameter 3 tier masterpiece is by far the flagship model. This range radiates grandeur and regality throughout.

Alexandra 006

Please note that all information in this catalogue is intended as a general guide and may be subject to change. The goods supplied may differ slightly from the illustrations, drawings, and descriptions due to improvements. While we strive to accurately maintain colour finishes, an exact match cannot be guaranteed. Some items can only be shipped on pallets and additional charges may apply. Armand

This collection of stunning crystal chandeliers and wall lamps uses a minimal amount of framework ensuring the dazzling crystal components are the main feature. Each arm is adorned from the top of the centre column down to the lampholder with high quality clear crystal pieces which alternate in size producing a visually enticing effect. Armand's distinctive imperial presence is even more prominent with additional crystal strands draped from arm to arm meeting below the substantial crystal glass piece which hosts the E14 lampholders. Available in three colour finishes to complement a modern, traditional or contemporary room setting, Armand is a high-class, sophisticated design.

Antique Brass/Clear

**IL31105 Aston Glass Square
Pendant 12 Light**
↗ 470 ↓ 1040–2190 ↔ 470 (mm)
12 x E14 60W, 22.2kg
Polished Chrome/Clear

Asia

Asia is a splendid light that definitely has the wow factor. Its frame is finished in oiled bronze, creating a rich and regal light suitable for halls and foyers. The 4 or 8 light pendant is perfect for vaulted ceilings while the semi-ceiling 3 light is a great option for rooms with less height. The square patterned glass diffuses the light slightly to give off a warm glow output.

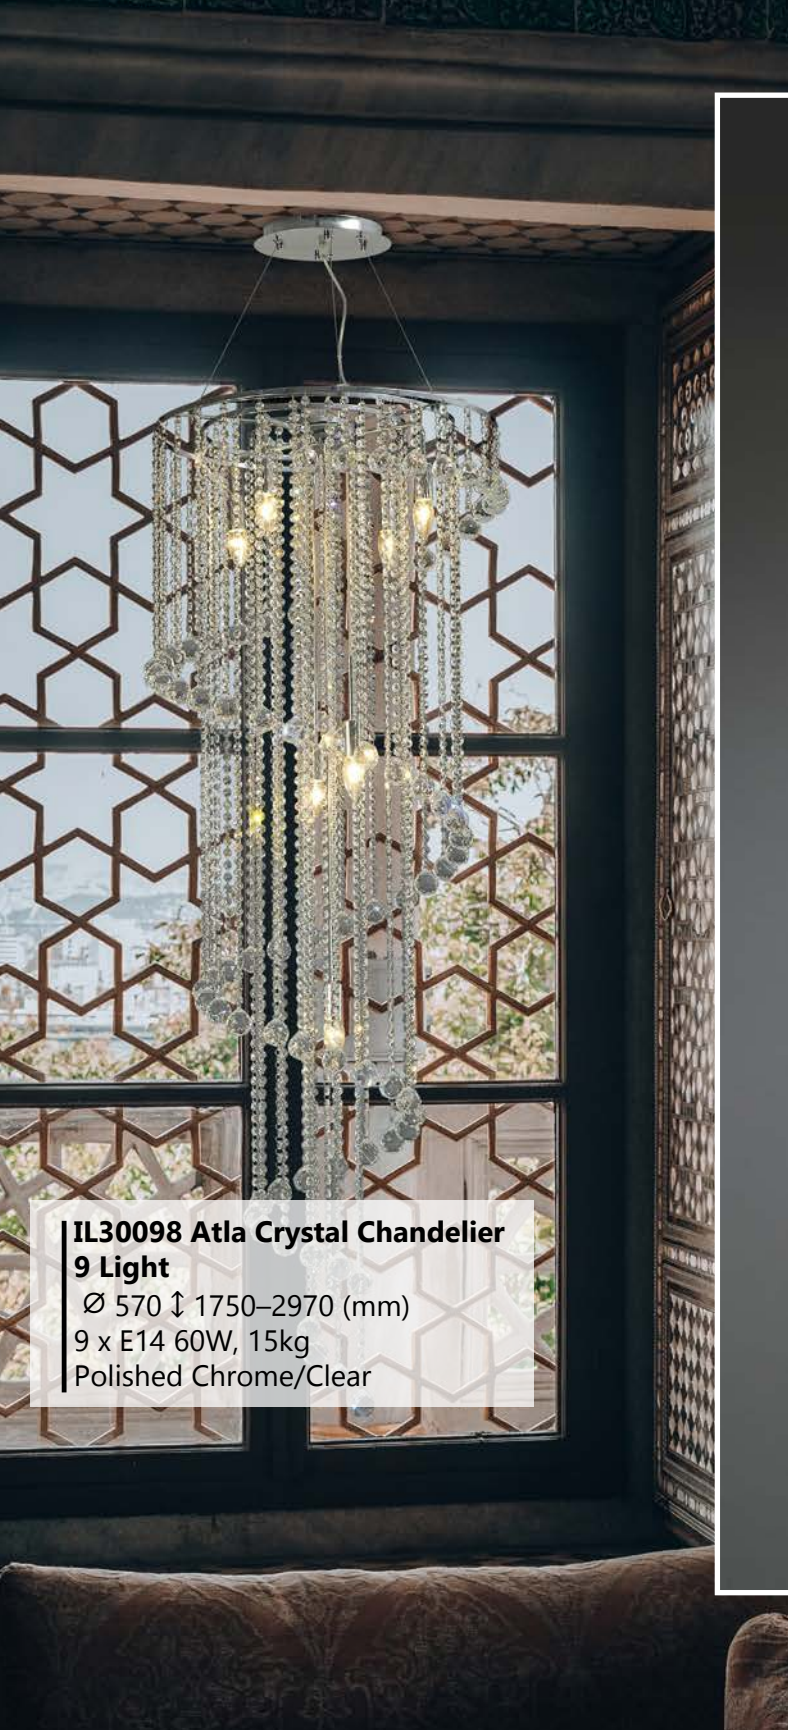

Aston

A comprehensive range of square glass lanterns with a designer edge. The substantial glass panels are bevelled on the edges and the designers ensured the lamp cluster have intricate detail to make these an opulent product. What is often known as a classical product has been given a contemporary make over with a Polished Chrome finish. Antique Brass version are also available for a more traditional environment.

Lamps not Included unless Integral LED

IL30098 Atla Crystal Chandelier
9 Light
 Ø 570 ↑ 1750–2970 (mm)
 9 x E14 60W, 15kg
 Polished Chrome/Clear

◀

Atla

A comprehensive range of crystal fittings with a mass of Asfour crystal at different levels. The wall light in this collection boasts a neutral design to compliment a vast range of crystal chandeliers. The flush fittings have a clear acrylic edge to add additional character to this design. Coloured crystal spheres can be purchased separately to tailor make this, or any other of our crystal ranges. The impressive 2m pendant version is a show stopper.

IL30202 Ava Crystal Pendant
12 Light
 Ø 800 ↑ 1000–2900 (mm)

IL30196 Ava Crystal Pendant
18 Light
 Ø 1000 ↑ 1100–3100 (mm)
 18 x G9 33W, 36kg
 Polished Chrome/Clear

◀

Ava

The most comprehensive range of its kind currently available. One of the most amazing series of products created from the hand crafting of metal rings connected together and octagon crystal added throughout. By using smaller crystals throughout all the products, and consequently more of them, the end result is truly spectacular creating a mass of colour and sparkle. With certain products available in French Gold a traditional concept is also available.

IL30750 Ava Crystal Pendant

IL31147 Aviva Crystal 56W LED Pendant
 Ø 680 ↓ 850 (mm)
 28 x Integral LED 56W, 6720lm, 12kg
 Polished Chrome

Aviva

A stunning design has been created using the latest LED technology resulting in this magnificent collection. Contra to traditional methods of illumination, up-light projection has been used to enhance the illumination of the unique and beautiful crystal petals, which creates an amazing effect throughout the design. The masterpiece in the collection is the 28 light pendant which is simply stunning. There are also spiral versions which would be suited for staircase locations. The in-direct light simply leaves the observer bewildered as to how the dazzling effect is created.

IL31392 Camilla Crystal Ceiling 10 Light

IL31393 Camilla Crystal Ceiling 12 Light
 ↗ 700 ↓ 640 ↔ 1000 (mm)
 12 x GU10 50W, 17.5kg
 Polished Chrome

Camilla

This range combines contrasting Asfour crystal components with Polished Chrome ceiling plates to create a stunning thought provoking design. Crystal beaded strands are sequenced using minute beads and more substantially sized ones producing elaborate patterns. The variably sized strands are then hooked to the frame from both ends to create a waved tunnel illusion. 40mm crystal balls are suspended within the wave of crystal to add even more impact. The 1 light Camilla fitting offers a more simplistic approach to this fascinating design.

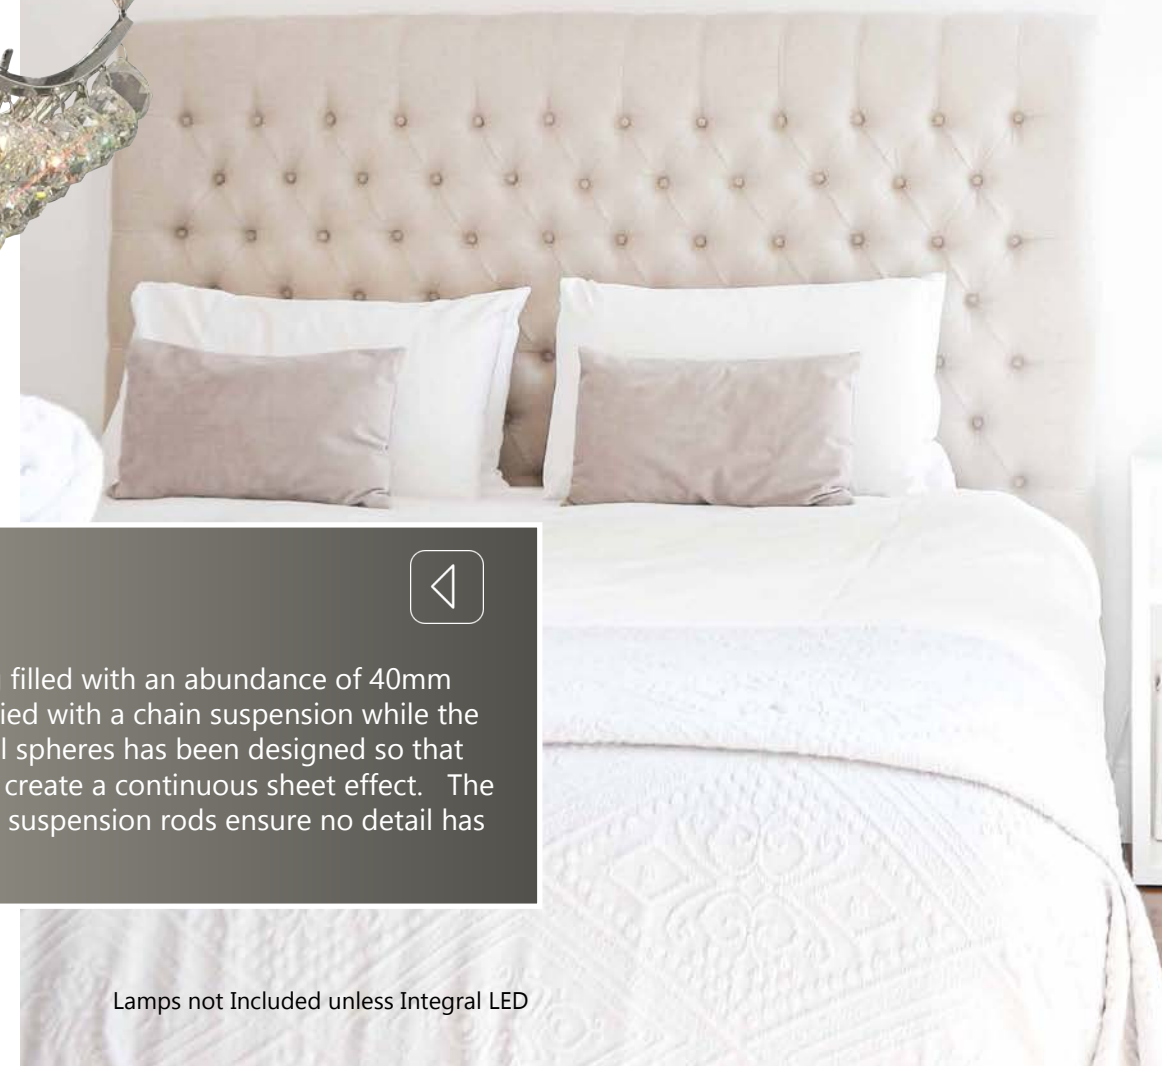

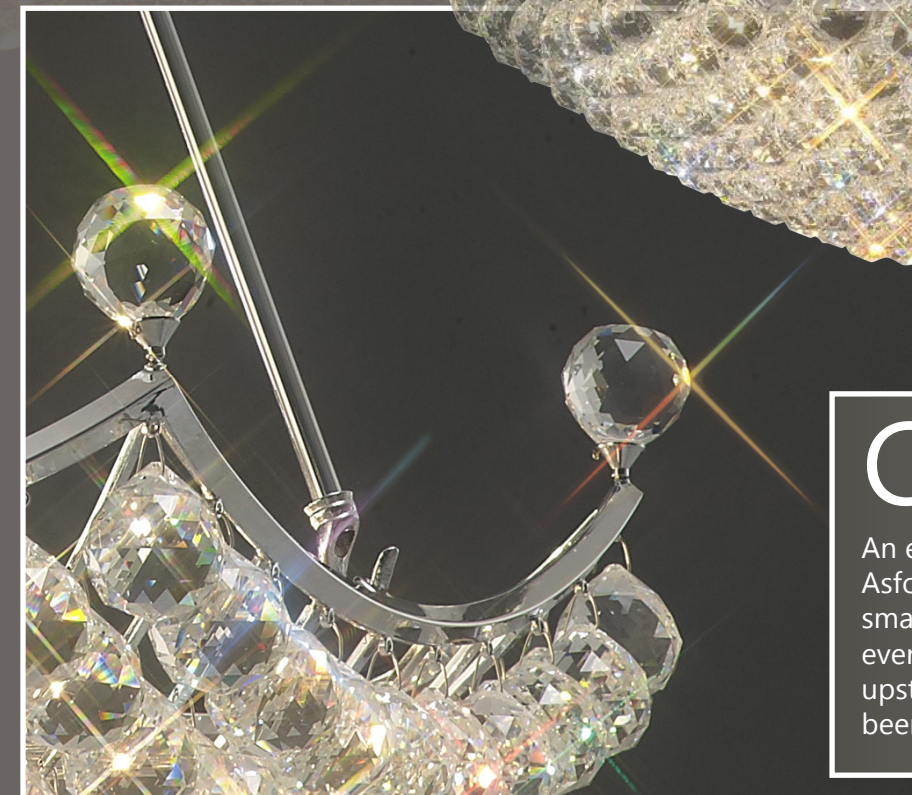

IL30058 Cesto Crystal Chandelier
12 Light
Ø 800 ↓ 1000–2500 (mm)
12 x G9 33W, 27.2kg

Ø 600 ↓ 880–1700 (mm)
10 x G9 33W, 19.5kg
Polished Chrome

Cesto

An extravagant stunning Polished Chrome fitting filled with an abundance of 40mm Asfour crystal spheres. The larger fitting is supplied with a chain suspension while the smaller fixture is semi flush. The basket of crystal spheres has been designed so that every single crystal is making contact in order to create a continuous sheet effect. The upstanding crystal spheres and crystal ball in the suspension rods ensure no detail has been missed to create this magnificent range.

Colorado

A very special range of elegant strands of crystal which combine to create special shapes. Precise engineering is required to ensure every crystal is positioned in the right place to create the unique identity of each item. The light reflects off the dazzling crystals which creates a beautiful effect around the room. The modern Colorado collection can only be described as a comprehensive and stunning range with an extensive variety of sizes and shapes. The hugely popular linear pendants within this range are now being introduced in a French gold colour finish as an alternative to the existing polished chrome items.

Eaton

A sophisticated range of round lanterns with a substantial metal framework lined with hand made curved glass panels. It is a refreshing change to have this stylish design applied to what is often know as a classical product. The 12 light version with a triple layer of lamp clusters, that have been attractively created, is magnificent. All products are available in Polished Chrome or Antique Brass.

Emily

Emily is a chandelier style design available in pendant lamps and wall fixtures. The chrome frame complements the clear cut crystal, creating a harmonious balance. The upright curve of the arms and tall candle drips imitate a traditional candelabras design combined with the polished chrome frame and cascading crystals to make it a more modern collection. Lamps are not included.

Antique Brass/Ivory Cream

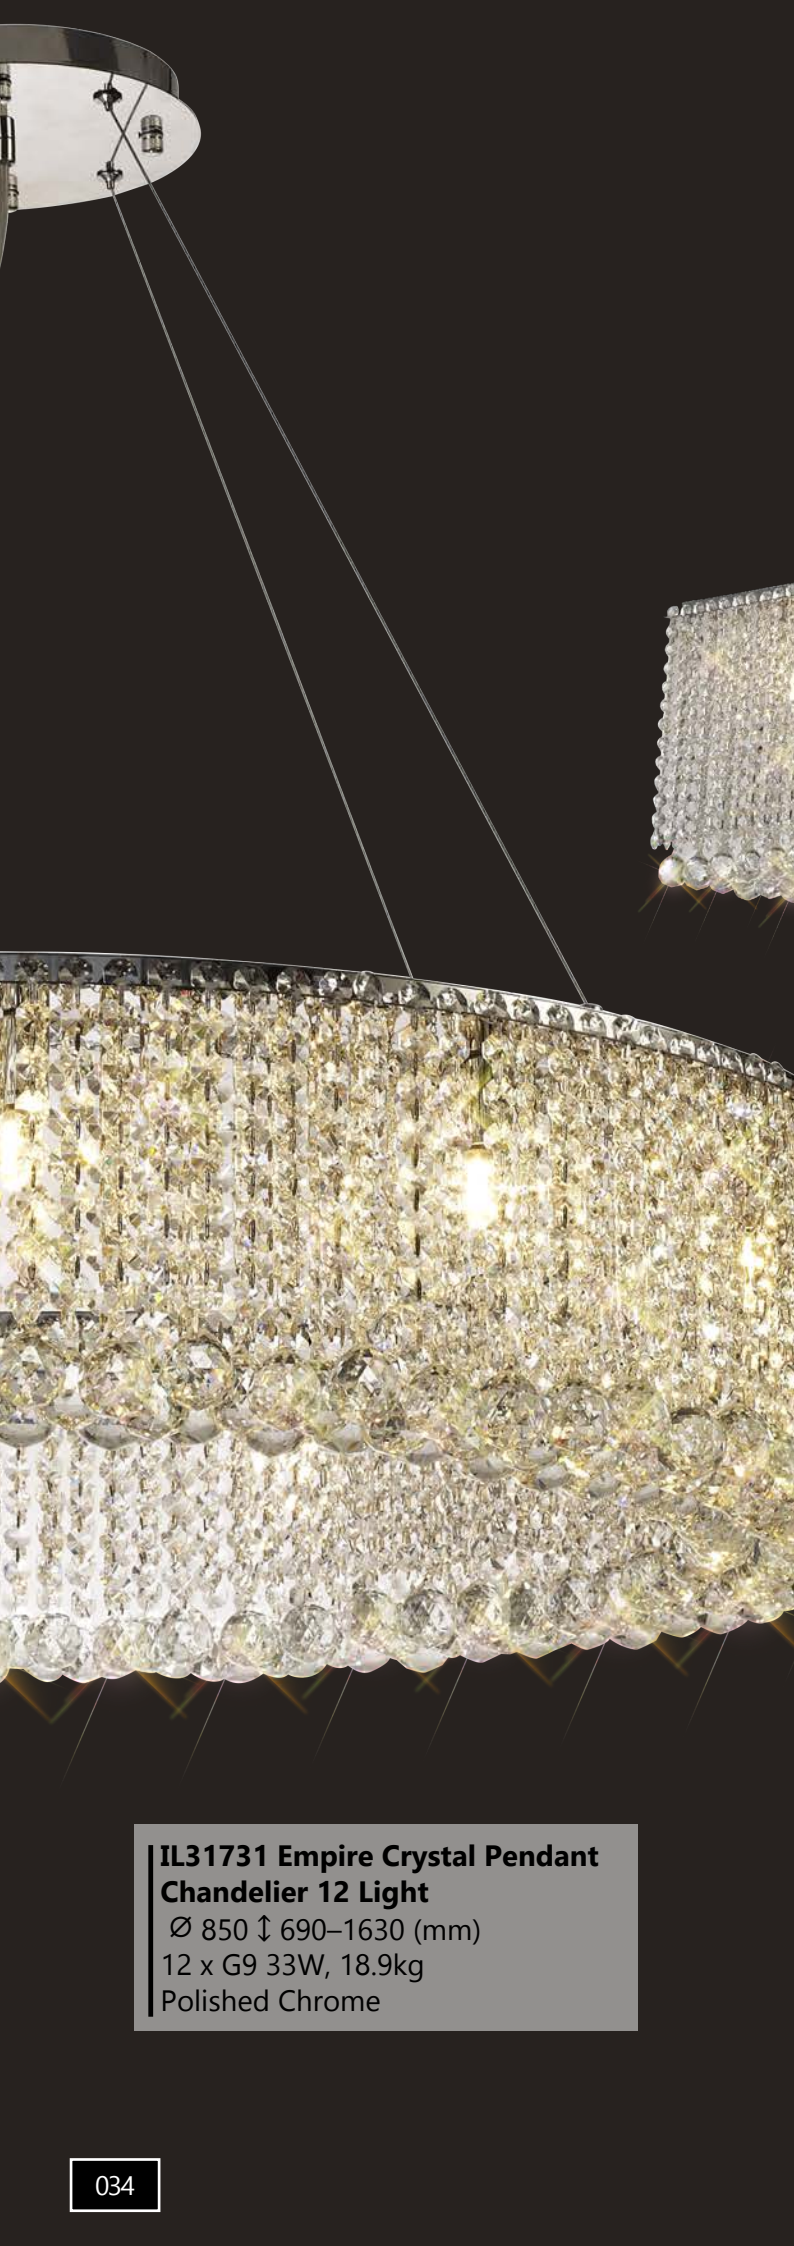

Ella

A substantial two tier Crystal chandelier encased in an eye catching silk string cylinder shade. The nature of the shade removes the harshness of the lamps yet is transparent enough to appreciate the details and quality of the chandelier within. The bottom arrangement of Asfour crystal is exposed thus giving a very special combination of the simplicity of the shade yet the intricate detail of a crystal chandelier.

Fay

Fay is a remarkable collection of tiered pendant crystal lights and a wall bracket. Finished in Aged Gold/Silver the result is decadent and show stopping. The crystal pieces are displayed like feathers, creating a luxurious light and interesting patterns as the light bounces off the crystal. Fay is a regal design for Diyas.

Ø 1100 ↓ 920–1730 (mm)
15 x G9 33W, 28.2kg
Polished Chrome

Empire

Empire is another incredible crystal range by Diyas lighting adding an alternative impressive collection to the crystal lighting portfolio they are famous for. This collection of five G9 pendants creates impact with its impressive sizes and abundance of high quality crystal components. Clear crystal balls are hung from rows of long clear crystal button strands, attached to the outside and inside rings of the polished chrome framework. The round versions of this light are available in three sizes with corresponding round ceiling plates. The largest round pendant is a truly spectacular statement piece with the 15 lampholders reflecting light around the sizeable 110cm diameter. Knowing that featured pieces such as these sometimes need to meet other requirements, the Empire collection also offers a high impact pendant in both a rectangular and oval shape.

 Polished Nickel/Taupe

Frances

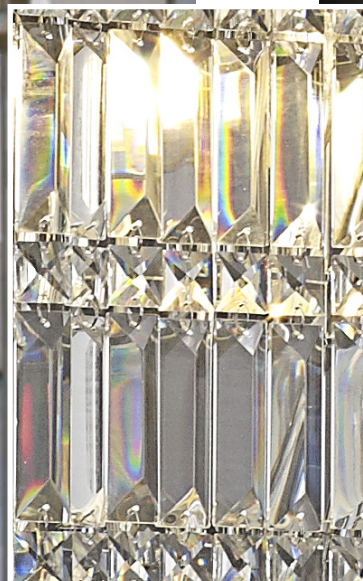

Frances is an extraordinary range specifically designed to create a spectacular display of sparkling Asfour crystal. Beginning with rounds of square cut crystal pieces at the top of the frame supporting strands of button crystals featuring rectangular crystal pieces all leading to the impressive conical crystal base, created with dazzling 40mm crystal spheres and framed by ring of more perfectly cut clear crystal squares. This spectacular collection is available in both Polished Chrome and Gold.

Hilton

Hilton is a collection for Diyas that is abstract in design and its shape is dynamic and new. Constructed of taupe tinted wood and polished nickel, the frame is grand with clean simple lines. Available in a 3, 5 or 10 light, depending on the size preferred and light needed, its neutral tones blend well with numerous colour schemes. The wall lamp is perfect for matching.

 Polished Chrome

Gianni

An extravagant range of Polished Chrome fittings that are completely loaded with rectangular and square crystal drops. The curved framework is almost not visible as the crystal is the splendour of this design. The scale of the larger fittings is most impressive whilst the design can still be appreciated in the smaller items. The larger wall light at a height of 53cm is extraordinary. A signature collection that comes with that universal appeal.

IL31697 Indie Crystal Pendant 6 Light
 ↗ 900 ↓ 520–1520 ↔ 295 (mm)

diyas 
Sparkle Redefined

Indie

Indie takes its inspiration from Middle Eastern styles and patterns with its Moroccan grid like frame. Baroque in finish with a combination of mocha and teal tinted plating, this range is exotic and a show stopper. The pendants are either rounded or rectangular, depending which one you prefer. Indie is a light that adds style as well as function to your chosen room.

Inina

A flagship range of fittings that are dressed with an excessive amount of high quality crystal. Suspended from a Polished Chrome or French Gold framework are strands of clear octagon crystals supporting a larger clear crystal prism. The sheer quantity of crystal faces within any of the Inina fixtures, create an immense amount of sparkle and spectral colour.

Kanya

A gorgeous stand alone design available in two sizes. Fully loaded with Asfour square crystal it oozes with sparkle when illuminated. The supporting curved arms house a run of crystal while the suspended crystal create an overall conical shape of magnificence. At the tip of the cone is a large crystal sphere completing the beauty of this design.

IL31058 Rosina Crystal Chandelier 8 Light
 Ø 830 ↑ 970–2470 (mm)
 8 x G9 10W, 21kg
 Polished Chrome

Rosina

Due to the extensive popularity of the Chrome Rosina range Diyas has released the entire collection in a French gold finish. This comprehensive family of crystal pendants and complimenting switched wall lamp features delicate framework which curves out in a series of arms. G9 lampholders are submerged in a cascade of crystal strands composed of crystal buttons and finished with 45mm crystal disks. The upper curve of the frame holds strands with crystal disks whilst the lower curve is dressed with a 30mm crystal ball and single crystal button.

 Polished Chrome/Dark Brown

Nardini

A collection designed to be a statement by utilising materials not often used in lighting. Elegantly shaped metal work is hand covered in a faux leather material to create that unique look. All items are available in a Black or Brown finish. The darkness of the faux leather is elegantly complimented with crystal sconces and cubes under each lampholder. The subtle sparkle of the crystal detail against the rich colour of the leather is simply special.

 Ø 1250 ↓ 2702/1300–2702 (mm)
 20 x E14 40W, 17.3kg
 Antique Gold/Clear/Clear Glass

Noon

Noon is a stunning trio collection of pedant lights that uses various and contrasting glass shapes to create a three dimensional globe exuding intrigue and glamour. The glass components consist of clear cylindrical tubes offset against an elongated water droplet design, each with a high quality reflecting the ambience of every fitting. These modern concepts are given a harmonious backdrop against the antique gold colour finish of the framework and suspending rods. Noon is a must have range that can be used as a classy accompaniment to a smaller setting or to make a dazzling impact with the largest 20 light piece.

Olivia

A gorgeous suite of pendants, wall, table and floor lamps in a Polished Chrome or Antique Brass finish. The frames are dressed in Asfour crystal and complemented with a fabric Gauze shade allowing maximum light output. The lampholders are strategically positioned as to eliminate any glare from the lamps but not jeopardising the crystals sparkle. The combination of a classic Flemish frame, high quality crystal and fabric shade create a truly exquisite fitting.

Orlando

A magnificent multi-arm fitting in Black Chrome or Gold finish with half of the arms hand wrapped in a striking Asfour clear/black crystal sheet. The remaining arms boast a large crystal sphere supported by tubes wrapped in a crystal sheet on a crystal pan. The fixtures are decorated throughout with Asfour crystal pendalogues. Complimenting wall lamps are available from the Elena and Fiore ranges. The sheer scale and attraction of this collection is spectacular.

IL50445 Sinclair Chandelier 12 Light
 Ø 900 ↓ 535–2035 (mm)
 12 x G9 33W, 12.4kg
 Polished Chrome/Clear

Sinclair

A stunning design of Polished Chrome fittings surrounded by curved crystal prisms creating a uniform concept throughout the range. Each substantial hand polished crystal refracts the light to create an impressive colour spectrum. This modern concept of a crystal chandelier is an impressive one. The wall lamp also boasts a concealed switch while the large pendant is an outstanding 90cm diameter.

IL31431 Sophia Crystal Chandelier 17 Light
 Ø 810 ↓ 1580–3080 (mm)
 17 x E14 60W, 31.5kg
 Polished Chrome

Sophia

Sophia is a remarkable crystal chandelier introducing a dramatic new crystal cut. The ceiling lights are available as both pendant and flush fittings in two sizes. The centre of the pendant fixtures feature a wide circular Polished Chrome frame that visually separates the impressive crystal drops from the strings of crystal beads draping from the metal ring at the top of the fixture. In order to maximise the effect from the crystal beads lamp holders have not only been placed behind the crystal drops but are also situated in the upper half of the pendant fixtures. The eye catching large rain drop crystals are also suspended on strands of crystal beads providing greater depth and presence. The corresponding wall lamp in this collection would make an impressive lone feature as its design reflects that of the chandelier.

Bano

The Bano collection sees strands of clear crystal buttons cascade at different lengths creating a beautiful waterfall effect. This is especially amplified by the doubled inner and outer layering of these strands producing a more substantial presence of crystal and sparkle. The natural crisp white of the integral LEDs draws even more attention to the crystals impact while effectively illuminating their given setting. Every fixture within the range from the eye catching array of pendants to the complementing wall lamps are dimmable, a key feature that is often missing from low energy LED lighting. Bano is available in either are polished chrome or french gold colour finish.

Wisteria

Wisteria's name is inspired by the stunning clusters of crystal pieces which elongate to form an imitation of the popular garden plant. The multiple bunches of crystal buttons delicately suspend from the curved over hanging arms, finished with an ornate french gold or polished nickel which further amplifying the overall aesthetic of Wisteria's natural beauty and elegance. With a variation of pendants and complementing wall lamp available this is a must have collection to enhance any home.

Vivienne

Each round shade which surrounds the E14 lampholders of the Vivienne collection is formed from high quality clear crystal pieces. With a substantial size, the rectangular shape crystals have a crossed cut that projects a more three dimensional visual. When illuminated by the chosen lamps being used the crystal refracts the light in a dazzling halo of ambience. The sleek upwardly curved arms which support the lampholders are embellished with beautiful crystal sconces. All of the pendants and complementing wall lamps available within the Vivienne range can be selected with a polished nickel or French gold colour finish.

Galaxia

Galaxia is a collection that capitalises on the beauty of natural materials. Each concrete pendant conceals the E27 lampholder that can take the lamp of your choice creating a tailor made fixture.. This is harmoniously partnered with a combination of cement domes or cubes with soft red, grey and white colouring. This stunning design creates a warm magical ambience that is reflective of distant light spots. The larger pendants combine all three colours against a white frame background and the single pendants can be selected with one of the three corresponding colours.

Jazz Oro

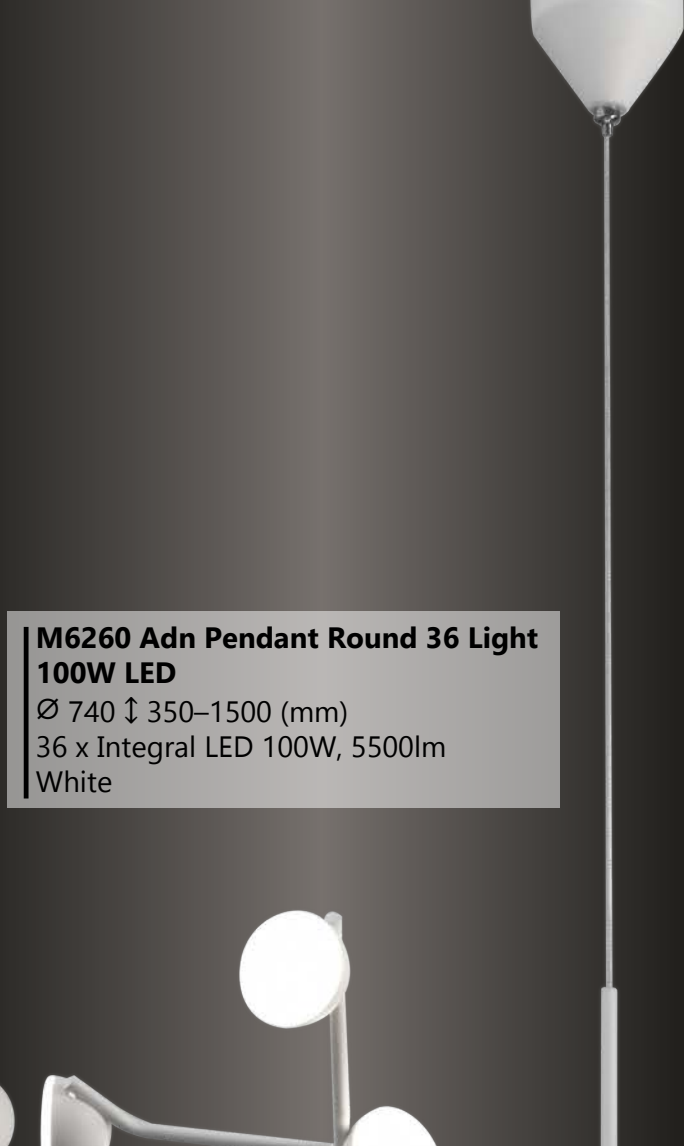

Jazz Oro is an ingenious artistic design concept by Santiago Sevillano Sebastia for Mantra. This modern collection is the manifestation of ultimate creativity, each E27 lampholder is fixed within an exact replication of the musical instrument trombone. The imitation shapes on the pendant lights are suspended from round plates on black adjustable cables. The collection is finished with a shiny polished gold colour plating to further the jazz instrument style. The range includes a table and wall lamp to complement the multiple ceiling light options. Bringing a 1950's music scene ambience to its room setting this range is an incredibly unique lighting decor feature.

Adn

An anarchic distribution of light points structured to mimic DNA strands in an artistic and visually balanced way, the Adn collection offers a comprehensive selection of lighting solutions to add character to your room setting. The round pendants are available in two sizes, along with a linear pendant option, Adn includes a table lamp, floor lamp and four different wall lamps. Each framework is coated in either black or white epoxy to perfectly complement the warm light emitted from the 3000K LED's. In an ever changing market in which LED lighting is becoming more prominent and in high demand, the LED heads are individually diffused providing the possibility to change the integral LED's at the point of light source, if this becomes necessary in the future. This feature offers the consumer added comfort and security knowing they are able to self maintain their LED product for years to come.

Mural

Mural is an original and inventive concept from the Mantra Team. Within this comprehensive collection featuring ceiling, table, floor and wall lights; the ceiling and larger wall fixtures both offer a dimmable option. The wall lights are composed of two shapes which are linked together by the central plate, shaped to correspond with the design. The integral 3000K warm white LED's, emit light from the front of the central plate and from the back of the shapes themselves producing an amazing halo effect on the wall behind the fixture. The two shapes on each wall lamp are intentionally projected at different widths, to enable the possibility of over-lapping multiple. Along with this incredible feature, an ability to fix these lights at any flush angle and the open sections within the shapes, Mural is the ultimate choice to explore unique, illuminated wall art creations. The imaginative possibilities are endless!

Armonia

When creating the Armonia collection José Ignacio Ballester has once again applied tridimensional filters of 3000K integral LED light, by using 360 degree acrylic diffusers giving a completely ambient array of light dispersion. The lines of this comprehensive collection reflect the seamless fluidity of rhythmic dance ribbons, curled and intertwined into unique, harmonious forms that range from a simple loop to a linear bow shape. Each individual design is available in either a polished chrome or titanium colour finish.

Capuccina

Mantra's Capuccina range sees an originally designed shade for each integral LED head. This unique feature appears as an irregular cone shape formed from folds of metal plates. The pendant and ceiling lights have tiers of adjustable bars making a scattered display of the light sources which can be adjusted as desired. A fully comprehensive collection, Capuccina also includes, wall, table and floor lamps and each item is available in either a black or white colour finish with warm white LEDs.

Celeste

Celeste's design is inspired by astrological forms, with the beam of light emitted replicating that of a celestial sphere on its orbit. Three pendant sizes offer an option to fit perfectly in any room size with black or white colour finishes also reflecting the light and dark contrasts of space. Its hollow semi-spherical aluminium construction harbours a polycarbonate diffuser which enables the multidirectional dispersion of 3000K LED light in a homogeneous way.

Nature

Mantra presents another uniquely designed, LED illuminated ventilation fixture, increasing their ever popular collection of similar concepts. The Nature fan light, seamlessly brings the humbling beauty of the natural world indoors with wood finished fan blades and ceiling plates. Each fan in this range is encompassed with an open, metal cage-like dome which allows a wider reach of illumination and airflow without compromising design. Both the fan and integral LEDs are controllable with either the remote supplied or Bluetooth APP control. The wooden features are paired with either a black or white metal framework. A white finished fan with no wooden elements is also available in this design for a more modern touch. Nature sympathetically provides a gateway between a natural and modern ambience within your indoor setting.

Nepal

With an impressive diameter of just over 1m, Mantra's Nepal range can use minimal materials to create impact. In a completely new design for their ventilation lighting, Nepal uses a stylish twist propeller concept, taking a different route to the fans usual concealment and instead making this section a central feature. In order to enhance and not detract from this aesthetic, the LEDs are diffused within a dome shape ring forming the fan's illuminating border. Available in four colour options this fixture is controllable via the remote supplied with the item, Bluetooth APP or Alexa and Google voice control, bringing a functional design into today's modern home and workspace.

Kilimanjaro

In this day and age Mantra understands the importance of bringing the calming benefits of the natural world into our indoor spaces. The Kilimanjaro range sees a different approach to Mantra's popular and expanding collection of ventilation lighting. The quiet 32/54DB fan produces a natural cool breeze, harmonising with the aesthetic of organic, beige rattan, forming the outer shade of the fitting. As well as the included remote control, the Kilimanjaro fan can be fitted at one of two heights, either flush to the ceiling, or as semi flush with the rattan shade just below the fan to directly funnel the air circulated.

Himalaya

Following the overwhelming success of the Aliso range Mantra have expanded on their break through design of ventilation lighting with their collection, Himalaya. With a new aesthetic design the 35W fan and LEDs are housed with an outer metal frame structured to mimic an industrial fan available in three sizes. This range's ability to set different intensities and speeds, means it can be installed in larger areas, such as living rooms, kitchens or open offices. The dimmable colour temperatures and different DC motor speeds can both be controlled either by the remote supplied with the item, Bluetooth APP or Alexa and Google voice control.

Cellar

A monochrome combination draws attraction to the comprehensive Cellar collection. Substantial opal glass shades encase the integral warm white or cool white LEDs and are visually enhanced against the dark black framework of each light. Not only is this range of pendant, ceiling, wall, table and floor lamps attractive in design, they are also a unique concept for LED lighting as the LED lamps are interchangeable should they need to be changed in years to come.

Corinto

Corinto is a Spanish design by Jose Ignacio Ballester. It's elemental structure is presented in the form of smooth and harmonious strokes producing silhouettes based on primary architectural shapes. The sleek curvature of the LED arms creates an exquisite statement feature which offers a delicate atmosphere in it's chosen room setting. The integral LED's produce a warm 3000K illumination, further amplifying the serene effect of the collections design. The ceiling lights available in two sizes can be accompanied by the corresponding wall, floor and table lamps. Both the large and small table lamps along with the wall light in this range, have an added functionality feature in the form of a touch dimmer, ideal for controlling your additional lighting solutions in a modern age.

Infinity

Infinity artistically displays a smooth and uniform line of light without a beginning or an end in this original design by Jose Ignacio Ballester. The contrasting combination of aluminium framework, polished chrome details and frosted polycarbonate diffuser produces a better realisation of the curves and turns which mimic the shape and movement of rhythmic ribbons. This integral LED collection produces a crisp white (3000K) light output in both pendant and flush ceiling lights as well as an impressive looped table lamp. The flush version boasts a mirror back plate which simply doubles the impact of the design. Several items are also available in dimmable versions.

Nur

Nur is a striking design combining the innovative talents of Jose L. Ballester and Santiago Sevillano. Minimalistic with a clean, sleek design, Nur brilliantly uses innovative LED technology to produce a smooth and uniform source of White (3000K) illumination. The bold strokes of aluminium and frosted polycarbonate produce an exciting concept and addition to any interior. Low maintenance and modern, Nur transfers its captivating shape across pendants, ceiling, wall and table lamps. Several items are also available in dimmable versions. Nur is Intricate in concept and visually dynamic.

Sahara XL

Sáhara XL Brown Oxide takes the curves and alluring design of Sáhara and presents them on a larger, even more impressive scale. Sáhara is an artful display of alternating tendrils of polycarbonate diffusers and a brown oxide finish frame. This creates an alluring light collection in its entirety. Its uncomplicated outline creates interesting shadows and an atmospheric ambience. The pendant and floor lamp are particularly stunning and would be a focal point in a modern space. The wall and table lamps perfectly balance the range as they are smaller but no less impressive in design and quality. Sáhara has skilfully interpreted the soft sand dunes of the Sáhara and successfully blended them with Mantras signature aesthetics and a warm white (2800K) light output.

Versailles

Influenced by the shapes and movement of flames, Versailles takes this aspect of nature and presents it in a magnificent manner. The use of new materials enables the light to diffuse along its transparent surface whilst the incorporation of LED light allows high performance with minimum consumption. With different pendant options available, this collection offers various solutions from the smallest to the largest requirement. Significant complimenting wall lights are also a statement in themselves. The polished chrome metal work creates a unique finish that adapts and reflects to its surroundings. The high quality frosted acrylic diffusers throughout provide a uniform and consistent crisp white (3000K) light output. The larger pendants have an integrated relay switch allowing a reduced illumination. An optional black velvet chain cover is also included.

Niseko

Niseko is a unique, modern collection of pendants by Mantra Fusion. The combination of the circular ring and central illumination, create a homely halo effect giving elevation to a seemingly simplistic design. Their high powered integral LEDs are diffused within the inside of the metal band framework and are tuneable between 3000-6000K when using the remote control supplied with each fitting. These pendants are available in three different colour finishes and diameters which increase in outstanding lumen output as they increase in size.

Shell

Mantra's Shell range hosts a fountain of attractive key features the main focus of which is adaptability. The stunning gold framework accentuates the integral 3000K LEDs each situated within a number of round disks. Each LED head has an adjustable directionality making the halo shape of the frames appear more like stage lights. The central ceiling plates are unassuming and direct the electrical wire whilst the suspension cables instead can be fixed in multiple positions along the ceiling offering a wider range of compositional design. This concept, new to the market, is untraditional and intriguing. Shell's stunning gold framework accentuates the integral 3000K LEDs each situated within a number of round disks. Sabina

The growing trend of using natural raw materials in interior design has been interpreted by Jose Ignacio Ballester with the Sabina collection. Sabina with soft rustic strokes of fibre, emulates the textures and colours of natural wood, coating the metal framework to create a branch like effect. The cables loop and knot around the branches and lead to the beige linen shades imitating burlap, in the form of traditional ropes. From the wide range of different pendant lights to the wall, table and floor lamps, the castaway theme is brilliantly carried throughout the range.

Loewe

Loewe collection is a mixture of gentle and simple stroke arms that amalgamate in the centre behind the unique details of a large bubbled shaped glass. Each arm also effortlessly combines the dynamic shape of the bubble glass sconces with the elegant white organza shades. The arms are artistic strokes of polished chrome that vary in diameter, subtly defining the grace of this design. The full range is also available in antique brass which is complimented with cream organza shades for a warmer effect. The floor lamp also has a particularly unique design as it poises on three legs. Loewe is the epitome of refined lighting.

Paola

Paola offers a classical yet up to date collection of silver or gold painted light fixtures. Complimented with high quality black or cream fabric conical shaped shades giving this design a contemporary edge. The concept of the metal work making a loop before reaching the shade is the identity of this collection. The glass droplets are an accessory that can be removed if a more simplistic look is desired. Paola is a modern classic with charm.

Tiffany

Tiffany is most definitely a rare and grandeur lighting collection with an extensive range of products. It combines E27 or E14 lamp holders on the upper level which are accompanied by discreet G9 lamp holders that are housed at the lower level within each tube below. This ingenious concept directly enhances the sparkle of its crystal carvings, as well as illuminating the surfaces below. The angled tubes are a fascinating design followed by the crystal strands creating a cascade of luxurious colour. The full collection is available in either polished chrome with white shades, antique brass with a bespoke soft bronze colour shade or an exquisite French gold with cream shades. With the option to choose the alternative colour shade creates the flexibility to design the perfect solution. Tiffany is prestigious range of lighting that redefines elegance.
